

**Save Trees
Save Environment**

New Generation Wood Plastic Composites

Green and Clean Environment Solution from the us of AAKRUTI

As we know that there is no long life without trees. In Spite of that most of the products used by us for infrastructure development are made from wood, which is precious element given by the nature and it gives green and clean environment. More and more infrastructure is required due to increase in population, which leads to the cutting of about 10 billion trees annually, which directly effects to the environment. To reduce the environmental effects like increase in temperature, low rain fall and other climate change, we should stop cutting of trees and more trees to be grown.

AAKRUTI provides the best alternate/replacement for wood which helps to keep environment green and clean.

Our Solution

WPC BOARD

WPC DOOR FRAME

PVC FOAM BOARD

WPC DOOR

Termite & Pest Proof

Water & Moisture Proof

Fire Restardant

Timeless Warranty

Diverse Applications

Weather & Ageing Resistant

Environment Friendly

Zplus Woodplast Pvt. Ltd.

Why AAKRUTI

Integrity, honesty, transparency, competency and objectivity are the working principles of **AAKRUTI**. Resultant of which company always keep the supply time of products to any part of the country below or half the industry standards.

Our products are quality tested austerely by our quality control professionals and CIPET (Central institute of Plastics Engineering and Technology) to make sure that they are 100% flawless.

Our Mission

Our mission is to satisfy our customers by offering them with inconceivable assortment of products that are not merely qualitative but in addition reasonably priced too.

Our Vision

We always strive to attain progress but it shall never be at the cost of Mother Nature. All measures are operated with utmost care and concern, reducing the impact of our practices on environment. We always focus on following eco-friendly processes that reduce carbon footprints, in turn contributing to sustainable development.

Quality Statement

AAKRUTI is committed to manufacture and supply products which meet stringent quality standards and multiple quality confirmation levels, to provide value for money with the help of innovation and continuously upgraded technology, which leads customer's satisfaction and enhance loyal customer pool.

PVC Foam Board

PVC Foam Board is one of the most popular kinds that is used in the construction and engineering industry and has high hardness and mechanical properties that enhance with the increasing molecular weight but decreases with the rising temperature. Our PVC Foam Board possesses such physical properties that provide designers with an array of options while designing new products and developing solutions as it also acts as a replacement or refurbishment material. It is an upward trend for PVC Foam board manufacturer in India as the customers using plywood boards are now switching preference. On the contrary, PVC Foam Boards are lighter, less operative-expensive and offer many performance advantages

Thickness	5mm to 45mm
Color	White
Material	PVC (Polyvinyl Chloride)
Size	8 x 4 Feet (2440mm x 1220mm) and Customize
Pattern	Plain Board/Sheet
Surface	Smooth Surface
Type	Solid Board/Sheet
Density	0.55 g/cm3 and more

WPC Board

WPC Boards are the best alternate for the traditional use of wood and plywood for its durability and thermoplastic for its flexibility. WPC Boards are the overcome of the entire problem faced with the plywood.

WPC Board has features such as highly resistant to extreme weather, moisture and termites and low maintenance. WPC boards outperform conventional timbers in many areas. The result is that WPC Board Product won't rot, crack, warp or splinter.

WPC Boards have revolutionized the look and feel of outdoor areas. Highly versatile WPC board blends beautifully with any architectural style.

Thickness	5mm to 45mm
Color	Beige
Material	WPC (Wood Plastic Composite)
Size	8 x 4 Feet (2440mm x 1220mm) and Customize
Pattern	Plain Board/Sheet
Surface	Smooth Surface
Type	Solid Board/Sheet
Density	0.58 g/cm3 and more

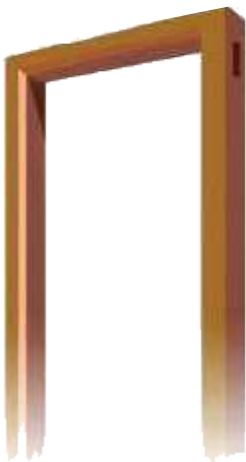

WPC Door Frame

Unlike wooden or other kind of Door frames, WPC Door Frames are waterproof, distortion resistant, and have great adaptability to outdoor conditions. WPC Door Frames is surely a game-changer in the history of Door frames, and in a few years' time, it will be the most appreciated product in the category.

Specifications

Size in mm	Density	Color	Type	Pattern
62mm x 32mm	0.95 and more	Brown	Solid	Moulded
75mm x 50mm	0.95 and more	Brown	Solid	Moulded
100mm x 50mm	0.95 and more	Brown	Solid	Moulded
100mm x 65mm	0.95 and more	Brown	Solid	Moulded
125mm x 65mm	0.95 and more	Brown	Solid	Moulded
Available Length : 3 / 4 / 5 / 6 / 7 / 10 / 17 Feet and Customize				

WPC Solid Door

WPC Solid Doors are manufactured with our advance technology to achieve high quality, accurate dimensions & precisely finish products on which customers can decorate easily with CNC carving, high gloss coating, extra ordinary digital printing, HPL lamination, PVC Foil lamination etc.

WPC Solid Doors are available in different sizes and thickness range and variety of colours door can be made available on special Order.

Specifications

Thickness	25mm to 40mm
Color	Beige
Material	WPC (Wood Plastic Composite)
Size	Width 26,28,30,32,34,37 Inch Height 72,75,78,80,81,84 Inch
Pattern	Plain Door/Sheet
Surface	Smooth Surface
Type	Solid Door/Sheet
Density	0.55 g/cm3 and more

Comparison between Wood and WPC/PVC

Characteristic	Wood/Plywood	WPC/PVC
Water Proof & Moisture Proof	✗	✓
Termite Proof & Pest Proof	✗	✓
Weather & Ageing Resistant	✗	✓
Paintable	✓	✓
No Shrinking & Swelling	✗	✓
Bacteria & Fungus Resistant	✗	✓

Application

- ❖ Wardrobes
- ❖ Cabinets
- ❖ Countertops and tables
- ❖ Doors
- ❖ Partitions
- ❖ False Ceilings
- ❖ Laboratory Tables
- ❖ Full Work Stations
- ❖ Wall Cladding
- ❖ Signage
- ❖ Fencing
- ❖ Switch Cabinets
- ❖ Electric control Panels
- ❖ Advertising board and many more

Features

- ❖ Minimum contraction & expansion
- ❖ Easy to mould, screw or grout
- ❖ Various finishes can be done
- ❖ Quicker installation
- ❖ Water Proof & Moisture Proof
- ❖ Termite Proof & Pest Proof
- ❖ Paintable & Washable
- ❖ Solid & Light Weight
- ❖ No Shrinking & Swelling
- ❖ Bacteria & Fungus Resistant
- ❖ Fire Retardant
- ❖ Timeless Warranty
- ❖ Maintenance Free
- ❖ 100% Recyclable
- ❖ Environment Friendly
- ❖ Weather & Ageing Resistant
